

## **Ingenious methods to run a luminous religious dialogue**

**Dr . Hoda Mahmoud Darwish**

Professor and chairwoman of studies And Research Religions

Department And director of Israeli studies center.

### **Summsery of the research :**

Currently the Arab worlds is passing a case of chaos which resulted in radical mania and they think that they do well

And no longer the sectarianism war as what is happening in Iraq and Syria the only problemtic issue but the field is widen for fighting and the war extends to kill the sons of the one sess and dreed (same doctrine) . And every one accuses the other that he is the bearer of violence and haunted with terrorism .

Currently we face a big problem on the international scale, it is linked to the developing the phenomenon of social and political piousness. The thing that supposed to us to resort to the spiritual values of religion as they are the ideal replacement for the moral degradation.

The world became in its recent style orbits either religious groups or radicalism and the rising systems with religious ideology. And these great challenges have supposed the necessity of religious thought in putting effective positive bases for religious dialogue .

This research aims at the production of balanced modern religious dialogue achieving the best ways for the effectiveness and coexistence among the mankind with love ,tolerance, understanding and rejecting all kinds of hatred, violence and terrorism achieving the demanding positively in all kinds of life either if it is social,political or economic.
