

Distinguished installations in The Heritage, Archeology and art (Qusayr Amra and Saint Hilarion Monastery as A model)

Researcher. Mona Samir Maqat

BA in History and Archeology - Islamic University of Gaza

munasa1994@gmail.com

Abstract:

Qusayr Amra: It is the most famous of the desert castles located in eastern Jordan in the Governorate

Zarqa. Where the site included a variety of archaeological sites (frescoes, hallway)

The middle, the eastern portico, the throne hall, the water wheel and the bath complex which contained the largest group

It is considered one of the most photographic wall paintings in the world from the early Islamic period

The most important examples of early Islamic art and architecture, and his short life was listed UNESCO World Heritage in 9122 AD.

Saint Hilarion Monastery: This monastery, which is a unique architectural model, brought together a large number of people

Architectural Models The Tell Umm Amer site (Khirbet Umm al-Tut) is located in Nuseirat, 2.2 km away

South of Gaza City, the monastery served as an important station at the crossroads of the House of Egypt and Palestine

Syria and Mesopotamia

research aims:

Provide a clear and complete picture of these sites.

Find out about the most important architectural elements in these sites.

Research Methodology:
