Lecturer at the Higher Institute of Applied Modh- Arts Department - 6th of October City

Abstract:

The art of printed fashion is one of the plastic arts and applies all the technical rules of plastic arts. In the 20th century we find the remarkable relationship between the modern artistic trends and the fashion innovations. This comes from the automaticity of the age. We find that the factors that affect the formative artists from modern art schools and artists Fashion is common, but a fashion artist can not escape from reality to fantasy, but he has to live reality so that he can produce his society and benefit from it around to produce innovative designs that meet the needs of individuals. The fashion industry also plays an important and effective role in the economy of the country in all its circumstances and environment through the export, import and trade movements. This gives the country economic development opportunities. The fashion industry is a proof of the progress of the country and its economy. In developing the national income of the country.

We will be exposed through this event to the extent of the impact of modern art on the design of printed fashion and fashion students and the importance of this relationship and the ability to create creative designs printed inspired by modern art using various printing techniques and display their innovative designs and the ability to compete with international fashion houses where they win that experience The ability to get out of the labor market and the opportunity to start thinking about small projects that contribute to support the country in the current period.

In the research we will discuss the following axes:

- The relationship of fashion design to modern art.
- Provide students with the possibility of creating fashion designs related to the design inspired by modern art.
- Make the student how to implement designs using different printing methods.
- Providing the student with the ability to present design ideas through a fashion show.
